

Dr. Lakshmi Sowjanya

PhD Institution and Year : Osmania University, Hyderabad, 2011

Date of Joining IISc : August 26th, 2014

Area(s) of Research : Cancer Biology, Lipidomics

Name of the Post-doctoral Fellowship : DBT-BioCARE Grant for Women Scientists

Laboratory where currently working : Dr. Annapoorni Rangarajan's Laboratory

Department : Department of Molecular Reproduction Development and Genetics

Email address and Telephone number : sowjanya@mrdg.iisc.ernet.in

Topic(s) of Research : Study on the cross talk between integrins and AMP-activated protein kinase during cancer progression Lipid profiling under physiological stress condition

Research Publications in IISc : NA

Other accomplishments and recognition while in IISc : NA

What information will be useful to post-docs if it is available on the post-doc page on the IISc Website ? List the items.

1. Information about research fellowships and grants.
2. Job opportunities.
3. Institutional facilities available to post-docs.
4. Institute policy for post-docs.
5. Information about post-doc groups and associations and their activity.

A tweet about your post-doctoral experience in IISc :

Doing science in IISc is a wonderful experience. Campus is beautiful which gives an excellent environment for great learning.
