

Dr. Naik, M. Keerti

PhD Institution and Year : Karnatak University, Dharwad and 2013

Date of Joining IISc : September 2014

Area(s) of Research : Material Electrochemistry

Name of the Post-doctoral Fellowship : Dr. D.S.Kothari Postdoctoral Fellowship

Laboratory where currently working : Prof. S. Sampath

Department : Department of Inorganic and Physical Chemistry

Email address and Telephone number : keertiraman@gmail.com

Topic(s) of Research : Synthesis of Novel Electrode Materials for Energy Storage Devices

Research Publications in IISc :

Effects of composition and nanostructuring of palladium selenide phases, Pd₄Se, Pd₇Se₄ and Pd₁₇Se₁₅, on ORR activity and their use in Mg–air batteries. J. Mater. Chem. A DOI: 10.1039/c7ta00253j

Other accomplishments and recognition while in IISc : No

What information will be useful to post-docs if it is available on the post-doc page on the IISc Website ? List the items.

A tweet about your post-doctoral experience in IISc :
