1. Mention the area in which the postdoc interested to shift (If any)
2. What kind of opportunity does the postdoc looking for?

A tweet about your post-doctoral experience in IISc :

My post-doctoral experience in IISc is amazing. This is the best place to do science, learn and improve your skills. I have learnt a lot in terms of science and skills. This is the place we get excellent opportunity to know ourself and our career path. IISc has wonderful mentors to help you grow in your career.
