

IISc-CIDR

Second Annual Meeting on Infectious Diseases

Date:

November 23rd 2017

Venue:

Main Auditorium

New Biological Sciences Building

Indian Institute of Science, Bangalore.

SPEAKERS

Yogesh Shouche (NCCS, Pune)

Human Gut Microbiome in Health and Disease

Aswin Seshasayee (NCBS, Bangalore)

Bacterial evolution in stationary phase

Arunika Mukhopadhyaya (IISER, Mohali)

Modulation of host-cellular responses by a gram-negative bacterial ligand *Vibrio cholerae* porin OmpU

Anindita Ukil (University of Calcutta, Kolkata)

Suppression of host defence responses through PGE 2 dependent cAMP signalling during infection by the protozoan parasite *Leishmania donovani*

Taslimarif Saiyed (C-CAMP, Bangalore)

Building ecosystem for fostering cutting-edge Life science/healthcare innovation

Rupinder Kaur (CDFD, Hyderabad)

An essential role for the phosphoinositide 3-kinase in the virulence of *Candida glabrata*

Kaustuv Sanyal (JNCASR, Bangalore)

Fungal centromeres – beyond the point

Dibyendu Sarkar (IMTECH, Chandigarh)

Major virulence regulators of *Mycobacterium tuberculosis* contribute to mechanisms of virulence regulation and stress response via multiple protein-protein interactions

Ashis Kumar Nandi (JNU, New Delhi)

Infection memory development in plant
