

Dr. Patil, Sumati

PhD Institution and Year : September 2014, Department of Physics, SP Pune University, Pune- 411007 India.

Date of Joining IISc : 1st December 2016

Area(s) of Research : Material Science, Scanning probe microscopy/ spectroscopy techniques.

Name of the Post-doctoral Fellowship : UGC's Dr. D. S. Kothari Postdoctoral Fellowship

Laboratory where currently working : Prof. D. D. Sarma's group, Solid State and Structural Chemistry Unit

Department : Solid State and Structural Chemistry Unit

Email address and Telephone number : spatil@sscu.iisc.ernet.in,
19sumati@gmail.com

Topic(s) of Research :

- Electron transport across nanostructures.
- Layered materials.
- Metal nanoparticles.
- Surface functionalization with molecular self assemblies.

Research Publications in IISc (provide full citation information) : None

Other accomplishments and recognition while in IISc : None

What information will be useful to post-docs if it is available on the post-doc page on the IISc Website ? List the items.

A tweet about your post-doctoral experience in IISc : -
