

Modifications to the Tender Technical Specification for the Procurements of a High Pressure RHEED (Reflection High Energy Electron Diffraction) System and Accessories'

Date: 29th June 2017

This document is being published to extend **technical criteria 3.3** in the tender titled '*Procurements of a High Pressure RHEED (Reflection High Energy Electron Diffraction) System and Accessories*' with reference number: *PH/SMI/169/2017-18* and published on *14th June 2017*.

Amended technical criteria 3.3: **A high-resolution camera with the following specifications should be supplied; Pixel number: 650 X 400 pixels (or better); Bit depth: 12 bits (or better); Frame rate: 85 frames/sec (or better). A higher frame rate camera with >100 frames/sec, a pixel number of 1024 x 1024 (or better), and a bit depth of 12 bits (or better) may be quoted as an option.**
