

Dr. Tripathy, Madhusmitha

PhD Institution and Year : Department of Physics, IIT Madras, 2017

Date of Joining IISc : 3rd October 2016

Area(s) of Research : Biological Physics, Soft Condensed Matter

Name of the Post-doctoral Fellowship : DBT-IISc

Laboratory where currently working : Anand Srivastava's Lab

Department : Molecular Biophysics Unit

Email address and Telephone number : madhusmita@mbu.iisc.ernet.in

Topic(s) of Research : COARSE-GRAINING IN BIOMOLECULAR SYSTEMS, ALLOSTERY IN PROTEINS

Research Publications in IISc : -NA-

Other accomplishments and recognition while in IISc : -NA-

What information will be useful to post-docs if it is available on the post-doc page on the IISc Website ? List the items.

- a) Information on national and international fellowship schemes and relevant details (application process, dead lines, etc.)
- b) Open positions in relevant fields (post-doc and job opportunities: information can be sought from various departments and can be compiled together at this webpage).

A tweet about your post-doctoral experience in IISc : -NA-
