

Gayathri H. N.

PhD Institution and Year : Centre for Nano and Soft Matter Sciences and 2017

Date of Joining IISc : May 2017

Area(s) of Research : Soft matter physics - Charge transport characteristics in 2D materials and ultra thin films, Monolayers at interfaces

Name of the Post-doctoral Fellowship : NA

Laboratory where currently working : Low Temperature Nanoelectronics group,
Prof. Arindam Ghosh's Lab, Dept. of Physics, IISc

Department : Physics

Email address and Telephone number : gayathrihn@physics.iisc.ernet.in
08022932726, 08022932059

Topic(s) of Research : Exfoliation of 2D materials, polymer composites

Research Publications in IISc : NA

Other accomplishments and recognition while in IISc : NA

What information will be useful to post-docs if it is available on the post-doc page on the IISc Website ? List the items.

- a. Information of post-doctoral openings in labs around the world
- b. Information of funds those are available for post-doctoral fellows to attend conferences and workshops
- c. Information on job openings at industries and research institutes

A tweet about your post-doctoral experience in IISc :
