SECTION 2 – ELIGIBILITY CRITERIA

Prequalification criteria:

1. Bidder should have well established own establishment
   (Enclose Company Registration Certificate)

2. The vendor should have a good track record of having previously supplied similar equipment’s in India
   (Self-declaration – Annexure 3)

3. The vendor should have qualified technical service personnel for the instrument based in Bengaluru.

4. Bidder should have executed at least one order of similar instrument in India in the last 2 years.
   (Provide copy of Purchase orders – Annexure 2)

5. The payment will be through a Letter of Credit.

6. The Bidder should not be currently blacklisted by any institution, bank in India or abroad.
   (Self declaration-Annexure-4)

7. The Bidder should accept tender terms & conditions
   (Annexure-5)
SECTION 3 – TERMS AND CONDITIONS

Submission of Tender:

1. All documentations in the tender should be in English

2. Tender should be submitted in two envelops (two bid system)
   Technical Bid (Part-A) – Technical bid consisting of all technical details along with commercial terms and conditions; and
   Commercial Bid (Part-B) – Indicating item wise price for the items mentioned in the technical bid

   Superscripting on both the envelopes the tender number and the due date and both these sealed covers are to be put in a bigger cover which should also be sealed and duly superscripted with the Tender No & Due Date.

3. The SEALED COVER superscripting Tender number / due date & should reach the undersigned on or before due date mentioned in the tender notice. Incase due date happens to be holiday the tender will be accepted and opened on the next working day.
   **If the quotation cover is not sealed, it will be rejected.**

4. All communications are to be addressed to the undersigned only

5. Quoting of Price (s): USD

6. Excise Duty (ED)/ GST/ other taxes, levies, like Service Tax (ST), Education Cess, etc., are to be indicated separately. BIDDER should mention Central and State GST Registration and PAN in the tender.

7. If Price is not quoted in Commercial Bid as provided in Tender document then, the bid is liable to be rejected after forfeiting Earnest Money Deposit.

8. The purchaser reserves the right to accept or reject any bid and to annul the bidding process and reject all bids at any time prior to the award of contract, without there by incurring any liability to the effected bidder or bidders or any obligation to inform the affected bidder or bidders.

9. If the foreign bidder is represented, by their Indian representatives, the foreign
bidder has to submit a certificate about their relationship with the Indian firm.

10. Incomplete bids will be summarily rejected.

Cancellation of Tender:

Notwithstanding anything specified in this tender document, IISc Bangalore, in its sole discretion, unconditionally and without having to assign any reason, reserves the rights:

a. To accept OR reject lowest tender or any other tender or all the tenders.
b. To accept any tender in full or in part.
c. To reject the tender offer not confirming to the tender terms.

Validity Of The Offer:

90 Days from the date of opening of the technical bid.

Evaluation of Offer:

1. The technical bid (Part A) will be opened first and evaluated.

2. Bidders meeting the required criteria as stated in Section 2 of this document shall only be considered for Commercial Bid (Part B) opening. Further, agencies not furnishing the documentary evidence as required will not be considered.

3. Pre-qualification of the bidders shall not imply final acceptance of the Commercial Bid. The agency may be rejected at any point during Technical evaluation or during Commercial evaluation. The decision in regard to acceptance and / or rejection of any offer in part or full shall be the sole discretion of IISc, and decision in this regard shall be binding on the bidders.

4. The award of contract will be subject to acceptance of the terms and conditions stated in this tender.

5. Offer which deviates from the vital conditions (as illustrated below) of the tender is liable to be rejected:

   a. Non-submission of complete offers.
b. Receipt of bids after due date and time and or by email / fax (unless
specified otherwise).

c. Receipt of bids in open conditions.

6. In case any BIDDER is silent on any clauses mentioned in these tender documents, IISc Bangalore shall construe that the BIDDER had accepted the clauses as of the tender and no further claim will be entertained.

7. No revision in the terms and conditions quoted in the offer will be entertained after the last date and time fixed for receipt of tenders.

8. Lowest bid will be calculated based on the total price of all items tendered.

Pre requisite requirements:

In case of supply of equipment/instrument, you will have to intimate well in advance the prerequisite installation requirement of the goods so that the same is kept ready well in advance for installation.

Mode of Shipment:

The consignment must be airlifted, insured and transported to the installation site by the supplier.

Customs clearance:

The Centre will furnish the necessary papers for the import of items into India, necessary custom duty exemption certificate and other supporting documents to facilitate the import of the items.

Warranty:

The complete system is to be under warranty period of 1 year including free supply of spare parts and labor from the date of functional installation. If the instrument is found to be defective, it has to be replaced or rectified at the cost of the supplier within 10 days from the date of receipt of written communications from us. If there is any delay in replacement or rectification, the warranty period should be correspondingly extended. Bidder will be responsible for the proper functioning of the instruments during the warranty period.

Extended Warranty:

The manufacturer should provide 2 years of additional warranty (including parts and labor) after completion of standard warranty.
**Purchase Order:**

1. The order will be placed on the bidder whose bid is accepted by IISc based on the terms & conditions mentioned in the tender.
2. The quantity of the items in tender is only indicative. IISc reserves the right to increase/decrease the quantity of the items depending on the requirement.
3. If the quality of the product and service provided is not found satisfactory, IISc reserves the right to cancel or amend the contract.

**Delivery and Installation:**

The system should be delivered, installed and demonstrated (without any extra charges) within 45 days from the date of receipt of confirmed purchase order. The supply of the items will be considered as effected only on satisfactory installation and inspection of the system and inspection of all the items and features/capabilities tested by the centre. After successful installation and inspection, the date of taking over of the entire system by the centre shall be taken as the start of the warranty period.

**Payment Terms:**

The payment for the equipment will be through a Letter of Credit for the 100% of the equipment value.

1. 70% of the purchase order value will be released against shipping documents and remaining
2. 30% after satisfactory installation and demonstration

**No advance payment shall be made.**

**Statutory Variation:**

Any statutory increase in the taxes and duties subsequent to suppliers offer if it takes place within the original contractual delivery date will be to IISc account subject to the claim being supported by documentary evidence. However, if any decrease takes place the advantage will have to be passed on to IISc.

**Disputes and Jurisdiction:**

Any legal disputes arising out of any breach of contract pertaining to this tender shall be settled in the court of competent jurisdiction located within the city of Bangalore.
General:

1. All amendments, time extension, clarifications etc., within the period of submission of the tender, will be uploaded on the IISc website only and will not be published in newspapers. Bidder should regularly visit the above website to keep themselves updated. No extension in the bid due date/time shall be considered on account of delay in receipt of any document by mail.

2. The bidder may furnish any additional information, which he thinks is necessary to establish his capabilities to successfully complete the envisaged work. It is however, advised not to furnish superfluous information.

3. The bidder may visit the site before submission of tender, with prior intimation.

4. All imported equipment should be quoted in the currency of the country of origin, and all locally sourced items should be quoted in Indian Rupees.

5. Any information furnished by the bidder found to be incorrect either immediately or at a later date, would render him liable to be debarred from tendering/taking up of work in IISc Bangalore.

Ultra-high throughput Next Generation Sequencing System

Technical Specifications

For a large scale human population based study we require an ultra-high throughput next generation sequencing system capable of whole genome sequencing of human DNA using paired-end short read technology with ability to handle large number of samples in a cost effective manner and other future applications. The sequencing system should have the following features:

1. The sequencing chemistry should employ robust sequencing by synthesis method using nucleotides with reversible terminator and should mimic the natural biological chemistry and simultaneous addition of all four bases in the sequencing reaction for competitive addition to DNA template.

2. The instrument should be able to address multiple applications like sequencing of large genomes, transcriptomes, targeted re-sequencing, shotgun metagenomics, small RNA seq, methylation analysis, GBS, ChIP seq etc.

3. The sequencing chemistry should allow for highly accurate sequencing through homopolymeric regions.

4. The sequencing workflow should allow fully automated operation of paired-end chemistry without user intervention and support read lengths up to 300 bp and data output of up to 6000 Gb in single run.

5. Clonal amplification of DNA template should be fully automated and integrated part of the system.

6. System should offer flexible read length to support different applications, like: 2x50 bp, 2x100 bp, 2x150 bp.

7. The instrument should generate accurate base calls and high error free data with greater than 75% or more data over Q30 for 2x150 bp.

8. The system should come with an option to send data directly to a cloud-based server for data storage, sharing and analysis. In addition, there should be an option of deployment of an onsite server, for the same function.

9. The sequencing chemistry should be robust and globally proven, demonstrated with large number of peer-reviewed publications.
**Accessories:**

a. The manufacturer must provide a suitable computer/laptop with the software’s pre-installed to run the NGS platform  

b. Operation manuals and maintenance manuals should be included in the consignment  

c. Two extra copies of the operation software (in hard disks) should be made available as precautionary measure  

d. The manufacturer must provide a suitable UPS free of cost.

**Training and demonstration:**

a. Training about usage of the instrument (Hardware and software) must be demonstrated to at least two individuals free of cost.  

b. Analysis of the sequencing data like quality check, de-multiplexing, base calling, etc. must be demonstrated.  

c. For training and demonstration purpose flow cells and reagents required preparing libraries and for running flow cell must be provided free of cost.

**Personnel:**

An on-site application specialist with at least 3 years of proven experience with NGS platforms should be available at the facility for the duration of the guarantee period at assist NGS experiments and trouble shooting and research.

The above-mentioned technical specifications are highly desired. However, lower technical specifications may be considered if the above-mentioned specifications are found to be unsuitable in financial terms. The Institute reserves the right to go for lower specifications taking into consideration its financial constraints and technical preferences.

SECTION 7 - CHECK LIST

(This should be enclosed in the Envelop A)

The following items must be checked before the Bid is submitted:

1. Envelope "A": Technical Bid

   a) Section 5 Technical Bid (each pages duly sealed and signed by the authorized signatory)

Annexure 1: Bidders details
Annexure 2: Details of purchase orders
Annexure 3: Declaration regarding experience
Annexure 4: Declaration regarding clean track
Annexure 5: Declaration for acceptance of tender terms and conditions
Annexure 6: Details of items quoted
   b) Copy of this tender document duly sealed and signed by the authorized signatory on every page.
   c) Checklist

2. Envelope "B": Commercial Bid

Section 6: Commercial Bid: (Price to be quoted in USD)

Your quotation must be submitted in two envelopes Technical Bid (Envelope A) and Commercial Bid (Envelope B) super cscribing on both the envelopes the Tender no. and due date and the both these sealed covers are to be put in a bigger cover which should also be sealed and duly super scribed with our Tender No. & Due Date.
