About STI Hub in IISc Challakere			
<p>This recruitment drive is for a Science Technology and Innovation (STI) hub in IISc campus at Challakere which is a SID-DST project. This project is dedicated towards technology and innovation in rural India which can contribute to upliftment of underprivileged communities. Chitradurga is an agriculture and livestock centric economy and viable technological interventions/innovations would help increase the farmer's income as well as generate employments with help of local entrepreneurs. Hub's goal is to enhance the life quality of Chitradurga region residents by resolving their agriculture and livestock issues through Technology and Innovation.</p>
