Attending / CHAIR
Department of Civil Engineering
Indian Institute of Science
Bangalore, India
Thereafter, the Chair invited Mr. Naidu from M/s Beneka Construction to seek clarifications, if any. Three questions were raised and responses are provided after each question.

Q1 As per clause 4.2, The company/bidder should have ISO/ISI certification with regard to 9001, 14001 and OHSAS 18001 (SAFETY) certifications. As a supporting document of valid proof of registration Certificate derails to be submitted. (Same as It is Applicable in Clause 9.3.2) And all necessary certificates should be enclosed. We would wish to inform you that we don’t have safety certification can we still qualify for the tender, since we fulfill all other eligibility requirements?

Reply Satisfying the above indicated clauses is desirable. However, this criterion will not be used as a criterion for disqualification of an agency.

2. The completion of the project is within 100 days, can this be extended to 150 days?

Reply Times is the essence of the contract. The project needs to be completed in the indicated time and cannot be extended. Further, among the three units comprising the complete project, priority must be given to complete the Structural-cum-furnace facility and the control room at the earliest. Additionally equipment supplier for the facility will need to do in-situ fabrication and creation of the facility in these two units in tandem in order to complete the facility commissioning and operations in a timely manner, so as to commission the facility for end-use at the earliest.

3. Is working during the night time is allowed?

Reply The work can be carried out during the day and night as per the prevailing rules.

The meeting ended with a vote of thanks to the chair.

Ananth Ramaswamy.

Chair
