

Paraspar, an initiative of the Office of Communications (OoC) at the Indian Institute of Science (IISc), is a platform for conversations about knowledge systems, particularly science.

PARASPAR

Invites you to a lecture on

Why do frogs do what they do?

Insights from behavioural ecological studies on the Western Ghat Anurans

Speaker:

Gururaja KV

Ecologist

Srishti Manipal Institute of Art,
Design and Technology, MAHE

There is huge diversity in frog behaviour – some bellow loudly like a cow while others whistle like birds, some are green and some turn yellow; some are silent while others foot flag. There are some that lay eggs and leave, while some spend time taking care of the eggs. Having worked in the diverse field of behavioural ecology of frogs, I will share some stories and insights from my research in the Western Ghats on bioacoustics, multimodal signalling and breeding behaviour.

Venue

SV Narasaiah Auditorium, IAP, IISc

Date

10 September 2024 (Tuesday)

Time

4.00 pm

ALL ARE WELCOME
